Artist's Statement

"Spring of autumn"

My work is about the experience associated with a poignant feeling of transience, a beautiful sadness in the passing of lives and objects. Experiencing spontaneous and inarticulate feeling, I sought to present objects and experiences whose emotional impact is both powerful and obscure a reflection of Japanese term "Mono no aware" (pathos of things). Existence of ephemerality in my work evokes an emotion in a way in which affects us immediately and involuntarily before we are able to put that feeling into words. The inherent brevity and presence of ethereality aids in heightening the melancholic nature of my work.

Meerab Rehmat

Pakistan, Gujrat based did BFA from UOG with distinction in 2020. Being a visual artist my work revolves around a specific impasto technique in vector style which is executed in the form of relief, with oil paint on canvas or board. I always start a work of art on figurative with the composition of different parts of the body. But mostly I used the hands and facial features to express the emotion and expressions. I try to execute my work with a certain level of realism. the meticulous process brings me peace. I always enjoy the method and the process of my work. I never concern myself with the final outcomes and just unfold and let the ideas bend the reality.

I always talk about human behavior. Being an introvert, I find it hard to express myself in words; I speak through my paints to develop a better understanding of myself in a subjective environment. My present work is a mere depiction of 'Those silent battles That You Can't Talk about'. Because sometimes Silence become the language of unspoken pain when the heart is too full to find words for its sorrow.
